

MAURITIUS

45th

Mauritius ranks 45th among the 132 economies featured in the GII 2022.

The Global Innovation Index (GII) ranks world economies according to their innovation capabilities. Consisting of roughly 80 indicators, grouped into innovation inputs and outputs, the GII aims to capture the multi-dimensional facets of innovation.

The following table shows the rankings of Mauritius over the past three years, noting that data availability and changes to the GII model framework influence year-on-year comparisons of the GII rankings. The statistical confidence interval for the ranking of Mauritius in the GII 2022 is between ranks 43 and 59.

Rankings for Mauritius (2020–2022)

GIIYR	GII	Innovation inputs	Innovation outputs
2020	52	47	60
2021	52	48	58
2022	45	40	54

- Mauritius performs better in innovation inputs than innovation outputs in 2022.
- This year Mauritius ranks 40th in innovation inputs, higher than both 2021 and 2020.
- As for innovation outputs, Mauritius ranks 54th. This position is higher than both 2021 and 2020.

6th

Mauritius ranks 6th among the 36 upper-middle-income group economies.

1st

Mauritius ranks 1st among the 27 economies in Sub-Saharan Africa.

EXPECTED VS. OBSERVED INNOVATION PERFORMANCE

The bubble chart below shows the relationship between income levels (GDP per capita) and innovation performance (GII score). The trend line gives an indication of the expected innovation performance according to income level. Economies appearing above the trend line are performing better than expected and those below are performing below expectations.

Relative to GDP, Mauritius's performance is at expectations for its level of development.

The positive relationship between innovation and development

EFFECTIVELY TRANSLATING INNOVATION INVESTMENTS INTO INNOVATION OUTPUTS

The chart below shows the relationship between innovation inputs and innovation outputs. Economies above the line are effectively translating costly innovation investments into more and higher-quality outputs.

Mauritius produces less innovation outputs relative to its level of innovation investments.

Innovation input to output performance

Income ● High income ● Upper middle ● Lower middle ● Low income — Fitted line

BENCHMARKING AGAINST OTHER UPPER MIDDLE-INCOME GROUP ECONOMIES AND SUB-SAHARAN AFRICA

The seven GII pillar scores for Mauritius

Upper-middle-income group economies

Mauritius performs above the upper-middle-income group average in four pillars, namely: Institutions; Human capital and research; Market sophistication; and, Creative outputs.

Sub-Saharan Africa

Mauritius performs above the regional average in all GII pillars.

OVERVIEW OF RANKINGS IN THE SEVEN GII 2022 AREAS

Mauritius performs best in Market sophistication and its weakest performance is in Business sophistication.

The seven GII pillar ranks for Mauritius

Note: The highest possible ranking in each pillar is 1.

MAURITIUS'S INNOVATION SYSTEM

As far as practicable, the plots below present unscaled indicator data.

Innovation inputs

2.1.1 Expenditure on education was equal to 4.6% GDP in 2020—down by 2 percentage points from the year prior—and equivalent to an indicator rank of 59.

2.2.2 Graduates in science and engineering was equal to 21.6% of tert. grads in 2020 and equivalent to an indicator rank of 58.

2.3.1 Researchers was equal to 563.9 FTE/mn pop. in 2020—up by 2 percentage points from the year prior—and equivalent to an indicator rank of 66.

2.3.2 Gross expenditure on R&D was equal to 0.4% GDP in 2020—up by 15 percentage points from the year prior—and equivalent to an indicator rank of 67.

2.3.4 QS university ranking was equal to 0.0 in 2021—effectively unchanged from the year prior—and equivalent to an indicator rank of 72.

3.1.1 ICT access was equal to 8.9 in 2020 and equivalent to an indicator rank of 55.

4.2.4 Venture capital received was equal to 0.3 bn USD in 2021 and equivalent to an indicator rank of 1.

4.3.2 Domestic industry diversification was equal to 0.3 in 2019—effectively unchanged from the year prior—and equivalent to an indicator rank of 88.

5.1.1 Knowledge-intensive employment was equal to 133.0 thsd people in 2019—down by 2 percentage points from the year prior—and equivalent to an indicator rank of 61.

Innovation outputs

6.1.1 Patents by origin was equal to 6.0 in 2020—up by 50 percentage points from the year prior—and equivalent to an indicator rank of 94.

6.1.5 Citable documents H-index was equal to 104.0 in 2021—up by 28 percentage points from the year prior—and equivalent to an indicator rank of 115.

6.2.5 High-tech manufacturing was equal to 3.8% of mfg. output in 2019—up by 11 percentage points from the year prior—and equivalent to an indicator rank of 105.

6.3.1 Intellectual property receipts was equal to 0.8 mn USD in 2020—up by 3 percentage points from the year prior—and equivalent to an indicator rank of 89.

6.3.2 Production and export complexity was equal to -0.2 in 2019—up by 24 percentage points from the year prior—and equivalent to an indicator rank of 68.

6.3.3 High-tech exports was equal to 20.1 mn USD in 2020—down by 17 percentage points from the year prior—and equivalent to an indicator rank of 91.

7.1.1 Intangible asset intensity was equal to 44.6% of total value in 2021 and equivalent to an indicator rank of 59.

7.2.1 Cultural and creative services exports was equal to 41.7 mn USD in 2020—up by 9 percentage points from the year prior—and equivalent to an indicator rank of 32.

ABOUT THE GLOBAL INNOVATION INDEX

The Global Innovation Index (GII) is published by the World Intellectual Property Organization (WIPO), a specialized agency of the United Nations.

Recognizing that innovation is a key driver of economic development, the GII aims to provide an innovation ranking and rich analysis referencing around 130 economies. Over the last decade, the GII has established itself as both a leading reference on innovation and a “tool for action” for economies that incorporate the GII into their innovation agendas.

The Index is a ranking of the innovation capabilities and results of world economies. It measures innovation based on criteria that include institutions, human capital and research, infrastructure, credit, investment, linkages; the creation, absorption and diffusion of knowledge; and creative outputs.

The GII has two sub-indices: the Innovation Input Sub-Index and the Innovation Output Sub-Index, and seven pillars, each consisting of three sub-pillars.
